National Referee System

Domestic applicants who are applying to the Masters of Clinical Psychology or the Masters of Professional Psychology programs through the Universities Admission Centre (UAC) are able to access the National referee system offered by Psychology Reference. The Reference Request System allows applicants for Australian post-graduate programs in Psychology to apply for a reference from academic and/or professional referees and for these references to be shared with the nominated institutions. For further information regarding this system please visit

http://www.psychologyreference.org

The process is as follows:

- The applicant registers online via this link http://www.psychologyreference.org and pays the $25 subscription fee*.
- The applicant nominates referees and indicates the programs and institutions being applied to.
- The referees complete a reference online.
- The applicant then allows the completed references to be shared with the programs they have applied to.

*Please note: This system is the same across all Australian Universities. To be able to use the system, you will need to have an active subscription. The subscription allows you to access the service during the 2016-2017 intake from 1 August 2016 to 30 July 2017. The cost is $25 and can be paid for through the “My Account” section in the payment tab.
